Que transporte-t-il...

dans sa citerne ?

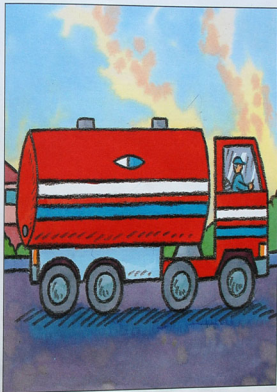

Du gaz, du pétrole...

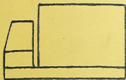

ou du lait ?

Le camion-citerne

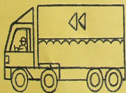

Le tracteur tire...

sa remorque...

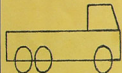

aux quatre coins...

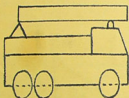

du monde.

L e semi-remorque

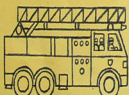

PIN-PON, PIN-PON,

laissez-le passer,

il est toujours pressé !

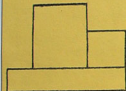

L camion de pompiers

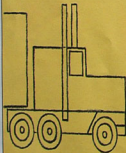

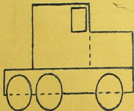

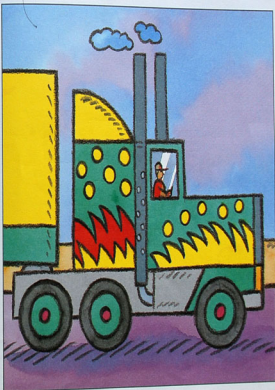

Quel drôle de truck que cet engin !

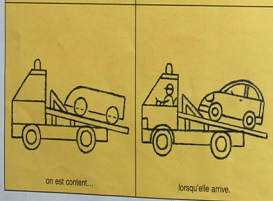

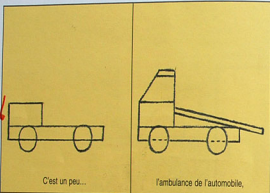

Cela veut dire camion en anglais.

Le truck américain

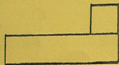

La dépanneuse

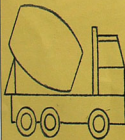

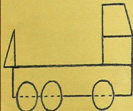

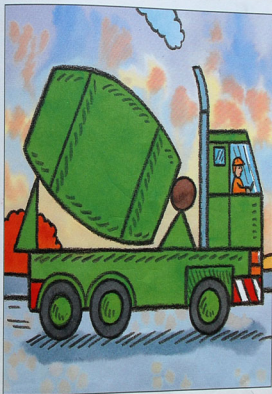

Son réservoir tourne comme une toupie...

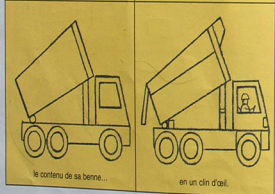

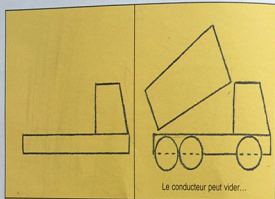

pour fabriquer le béton.

La bétonnière

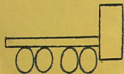

L Le camion-benne

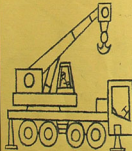

Fort comme Hercule,

il n'a pourtant qu'un bras...

pour soulever les poids.

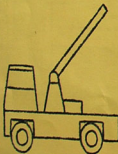

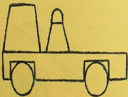

Le camion-grue

Il sert à réparer les fils du téléphone...

ou à accrocher les guirlandes de Noël.

Le camion-nacelle

Les camions roulent de ponts en autoroutes ou s'activent dans le chantier.

Prends tes crayons et imagine un nouveau décor pour les faire circuler.
